LEO AQUIBA SENDEROVSKY

Jr. Wordpress / Front End Developer

ABOUT ME

Over the course of my work experience, I have combined an initial passion for storytelling and a growing passion for web design and development.
I have developed several sites in Wordpress and Joomla for personal projects, and in 2021, I took up studying Front End Development.
My main goal is to grow in this area.
I have also spent 15 years working in the audiovisual industry, as a video editor, post production coordinator, script consultant and film professor.
